

Beautiful Danger
Words & Music Gary M. Wollman

**Complaining for years too sick for tears
You keep motorin' on to escape your own fears**

**Ricocheting around like a hardball hit for fun
Playing tag on a wager with losers kept on the run**

**And lovers left undone
Nothing could be stranger
Don't you agree as
Beautiful danger**

Beautiful danger

**Life's been solid but it ain't never been sweet
Left livin' full time keeping up with the street
So unseemly and completely incomplete
Goin' loggerheads with most all the people you meet**

**Yet you'll never admit your fault accompli
To family or stranger
And you can't stay away from
Beautiful danger**

Beautiful danger

**You can live with the torment or set yourself free
or resist til the very end as proud as one can be**

**But what's got under your skin guarantees your defeat
You may distract yourself with danger
Til your match you finally meet
and you've been beat**

**Take the scenic route
No don't risk all you see
Smell the roses along the road to
Sweet sanity
So you can leave
Beautiful danger**

Beautiful danger

**Quit your trollin' for trouble
Better do it on the double**

**Don't let it stain ya
It's time to rearrange ya
Gotta get away from
Beautiful danger**

Beautiful danger
