

With You Tonight

SS-032 · Words & Music by Gary Wollman

Set my fire, take me higher

Lead me where I wanna be

Leave me lonesome, say I've grown some

But please just let me be

With you, with you tonight
Oh you once meant everything to me

With you tonight
Words don't come too easily to me
Cast my role, take my soul

And I'll be anything

Name your desire, my love is hired

What you require's all I ever need to know

With you tonight
Oh you once meant everything to me

With you tonight
